What would you like to ask a person working in a MRF? Write down your ideas.

A large, hand-drawn green outline of a speech bubble with a wavy top edge and a pointed bottom edge. Inside this large bubble are two smaller, identical speech bubbles, one positioned above the other. Each of these smaller bubbles has two small triangles on its left side and two larger triangles on its right side, pointing towards the center of the bubble. The entire graphic is rendered in a dark green color.
